

I. OVERVIEW

Under the Drug-Free Workplace Act of 1988, the U.S. Congress required recipients of federal funds to take certain steps to provide for drug-free workplaces for their employees. Additionally, under the Omnibus Transportation Employee Testing Act of 1991, the U.S. Congress directed the Federal Transit Administration ("FTA") to issue regulations on drug and alcohol testing for public transportation workers in safety-sensitive positions.

In February, 1994, the FTA published regulations that prohibit illegal drug use and alcohol misuse by transit employees and require transit agencies to test for prohibited drug use and alcohol misuse (49 CFR Part 653, "Prevention of Prohibited Drug Use in Transit Operations" and 49 CFR Part 654, "Prevention of Alcohol Misuse in Transit Operations"). In addition, the U.S. Department of Transportation ("DOT") issued 49 CFR Part 40, "Procedures for Transportation Workplace Drug and Alcohol Testing Programs", which describes the testing procedures to be followed.

On December 18, 2000, the DOT significantly revised the Part 40 regulations to update the rule and to address changes in technology, the testing industry, and the DOT's programs. Similarly, FTA updated, revised and combined its drug and alcohol testing rules (Part 653 and 654) into a new regulation, 49 CFR Part 655. The new Part 40 and Part 655 went into effect on August 1, 2001. On June 25, 2008, the DOT again revised Part 40 to incorporate numerous provisions related to specimen adulteration and substitution. The majority of these changes became effective August 25, 2008. The remaining revisions became effective August 31, 2009.

This document sets forth the drug and alcohol policy and testing program ("the policy") of the Chicago Transit Authority ("the Authority") for employees in safety-sensitive positions and has been adopted by the Chicago Transit Authority Board of Directors pursuant to resolution. It was developed to comply with the requirements identified in the foregoing laws and FTA and DOT regulations and to identify all of those instances when a CTA safety-sensitive employee will be subject to drug and/or alcohol testing. Where applicable, the document identifies those policies and procedures that are CTA-mandated and not required by the FTA.

In adopting this policy, the CTA does not otherwise waive its right to enforce already established rules, policies, programs, or the terms and provisions of any applicable collective bargaining agreement governing drug and alcohol use or possession that are not inconsistent with this policy. Moreover, this document is intended to be read consistent with and subject to any otherwise applicable law or regulation presently in effect or which in the future may take effect. If any section or provision of this document should be held invalid by operation of law, none of the remainder shall be affected.

All covered employees are required to submit to drug and alcohol tests as a condition of employment.

II. INTRODUCTION

A. Policy Purposes

The Authority performs a vital service for the public. To ensure that this service is delivered safely, efficiently, and effectively, each employee of the Authority has the responsibility to perform his/her duties in a safe, conscientious, and courteous manner.

The purpose of this policy is to establish guidelines to maintain a drug and alcohol-free workplace and to reduce the probability of accidents or incidents related to the use and/or misuse of alcohol and other drugs by employees so that transit services are delivered safely, efficiently, and effectively.

This policy outlines four principles as a means to achieve the Authority's goal of providing a workplace free from the effects of drug and alcohol use and/or misuse for its employees. The first principle emphasizes deterrence from the use of drugs and alcohol in or affecting the workplace. The Authority will make education and training available for all employees regarding the effects of substance abuse on individuals and in the workplace. Supervisors and managers will receive specialized training in detection, early intervention, and enforcement.

The second principle is treatment and rehabilitation. The Authority maintains an Employee Assistance Program ("EAP") to assist employees with personal problems, including those surrounding the misuse of drugs and alcohol. The Authority supports rehabilitation before an employee's job is in jeopardy. Although employees are encouraged to receive help for drug and alcohol problems, participation in the Authority's EAP will not excuse an employee's failure to comply with rules and regulations of the Authority. Nor will it preclude discipline for rule or policy violations.

The third principle is detection. Toward this end, the Authority employs six (6) FTA-mandated drug and/or alcohol tests in the following circumstances: pre-employment, reasonable suspicion, post-accident, random, return to duty, and follow-up. Additionally, separate from any FTA requirements, the Authority mandates that all employees covered by this policy submit to a drug and alcohol test based upon a physician's objective medical judgment, to satisfy EAP requisites, and certain pre-employment, post-accident, and return to duty situations not otherwise covered by the FTA regulations. The foregoing drug and alcohol test policy will apply to all full-time, part-time, seasonal, and temporary employees of the Authority engaged in the performance of safety-sensitive functions. It also applies to: applicants for positions of employment involving the performance of safety-sensitive functions and employees of direct contractors engaged in the performance of safety-sensitive functions for the Authority.

The fourth principle is enforcement, which is essential if deterrence, rehabilitation, and detection are to be successful. All employees must be fit for duty as defined within this policy. Accordingly, the manufacture, distribution, dispensing, possession, or use of a drug or controlled substance contrary to the terms of this policy, and the use or possession of intoxicants contrary to the terms of this policy are prohibited.

B. Employee and Management Responsibilities

All employees of the Authority covered by this policy are required to refrain from using drugs and alcohol contrary to the specific prohibitions identified herein. The Authority's Vice President, Human Resources (or a designated representative) will monitor Department practices to ensure compliance with and answer any questions concerning the information presented in this policy. Contact information for program personnel is contained in Appendix A.

Employees are responsible for ensuring adherence to this policy. Managers and supervisors will be held accountable for both the application of the policy and the consistency of its enforcement. To that end, the Authority prohibits the discriminatory application, implementation, or enforcement of any provision of this policy on the basis of race, color, age, sex, religion, national origin and ancestry, sexual orientation, veteran status, disability or any other basis protected by federal, state, or local laws.

C. Confidentiality

Confidentiality will be maintained throughout the drug and alcohol screening process. The Authority will maintain records in a manner so that the disclosure of information to unauthorized persons does not occur. Additionally, the Authority, the specimen collection site, testing laboratory, medical review officer, ("MRO"), breath alcohol technician ("BAT"), and the substance abuse professional ("SAP") will be held to the strict confidentiality requirements consistent with FTA and DOT regulations as specified in 49 CFR 40 Subpart P, "Confidentiality and Release of Information" and 49 CFR 655.73, "Accessibility to facilities and records".

EAP personnel will be expected to carry out all actions relative to this policy in a manner which respects the dignity and confidentiality of those involved. EAP records are regarded as confidential medical records and are not available for inspection by anyone except EAP staff absent a written release of information by the employee. EAP personnel will release information to personnel of the Authority only on a need-to-know basis subject to advance notice to the employee. In any case where the employee raises a claim against the Authority involving the quality of care or services rendered by the EAP, the employee shall be deemed to have waived his/her right to confidentiality and the

Authority shall have the right to explore thoroughly and evaluate the employee's participation in the EAP.

A covered employee is entitled, upon written request, to obtain copies of any records pertaining to the employee's use of prohibited drugs or alcohol, including any records pertaining to his/ her drug or alcohol tests. The Authority shall promptly provide the records requested by the employee. Access to an employee's records shall not be contingent upon payment for records other than those specifically requested.

III. IMPLEMENTATION GUIDELINES FOR PROMOTING A DRUG AND ALCOHOL-FREE WORKPLACE

A. Deterrence

1. Fitness for Duty

Separate from any FTA requirements, the Authority has determined that an employee is fit for duty when he/she is able to perform his/her job duties, including when he/she is ready for work or working without the presence of any alcohol or the presence of any specified drugs or their metabolites as prescribed by this policy. Employees must understand that they are responsible for assuring that their job conduct is safe and appropriate.

An employee is "on duty" or "subject to duty" within the meaning of this provision:

- On his/her regularly scheduled days from the time he/she arrives on the property until the time he/she completes his/her work assignments and leaves the property.
- When reporting for a physical examination as a requirement of his/her position of employ.
- When the employee has volunteered or has been assigned extra work in his/her day off or vacation.
- Prior to the start of duty, when told in advance that he/she is expected to be on duty within the next eight (8) hours.

2. Reporting the Use of Prescription Drugs or "Over-the-Counter" Medication

Separate from any FTA requirements, safety-sensitive employees are required to report to the Authority the use of prescription drugs and "over-the-counter" medication if the physical, mental, or emotional health of the employee is impaired or becomes impaired, or changes significantly through the use of such a prescription drug or "over-the-counter" medication. A physician designated by the Authority will make the determination as to whether there is a possibility that the employee's performance of essential functions of the job may be affected or compromised by the employee's use of any such drug or medication or that the safety of the employee, his/her co-workers, or the public is, or could be, in jeopardy. If it is concluded that there is such a possibility and a reasonable accommodation pursuant to the Americans with Disabilities Act cannot be made, the employee will be considered unfit for duty and will be removed from service. The employee will remain out of service but only for such a reasonable period of time as is necessary for the employee to be cleared to return to work by an Authority-designated physician.

Safety-sensitive employees who fail to report their use of prescription drugs or "over-the-counter" medication in accordance with this section, and subsequently have a confirmed positive drug or alcohol test, are subject to progressive discipline up to and including discharge.

3. Education and Training

The Authority recognizes that education and training of its workforce and supervisors are major components of a successful drug and alcohol program. To that extent:

- All employees subject to testing under this policy will be given a copy of the policy.
- The Authority will make copies of 49 CFR Parts 40 and 655 readily available upon request of any employee subject to testing under this policy.
- The Authority will display and distribute informational material about the effect of drugs along with a community service hotline telephone number to assist employees who may be experiencing problems with prohibited drugs.

- The Authority will distribute informational material about the signs and symptoms of an alcohol problem and the effects of alcohol misuse on an individual's health, work, and personal life.

- Covered employees will receive at least sixty (60) minutes of training on the effects and consequences of prohibited drug use on personal health, safety, and the work environment and on the signs and symptoms that may indicate prohibited drug use.

- Supervisors and/or other company officers authorized by the Authority to make reasonable suspicion determinations shall receive at least sixty (60) minutes of training on the physical, behavioral, speech and performance indicators of probable drug use and at least sixty (60) minutes of training on the physical, behavioral, speech, and performance indicators of probable alcohol use.

In addition to the foregoing education and training requirements mandated by the FTA, the Authority will consider and implement such other education and training programs as will help promote safety goals, maintain the integrity of the Authority's drug and alcohol testing program, and enhance the benefits of that program.

B. Treatment and Rehabilitation—Employee Assistance Program ("EAP")

In order to promote a drug and alcohol-free environment, the Authority will work to assist eligible employees with problems due to the use of drugs or misuse of alcohol. Accordingly, separate from any programs regarding drug and alcohol testing mandated by the DOT and FTA, the Authority has established and encourages the use of its Employee Assistance Program ("EAP"). The EAP was established in part so that an employee who recognizes that he/she has a drug use or alcohol misuse problem may have the opportunity to receive treatment and rehabilitation.

Although employees are encouraged to receive help for drug and alcohol problems, participation in the Authority's EAP will not excuse an employee's failure to comply with rules and regulations of the Authority. Nor will it preclude discipline for rule or policy violations. Employees are directed to any pertinent collective bargaining agreement for the terms and provisions of, and restrictions and benefits attendant to, EAP participation. Any questions regarding the Authority's EAP should be referred to the Authority's Vice President, Human Resources (or a designated representative).

IV. PROVISIONS FOR DRUG AND ALCOHOL TESTING

A. General Conditions

1. Persons Subject to Testing

The following persons will be subject to drug and alcohol testing pursuant to the terms of this policy and must participate in this program as a condition of employment:

- All full time, part time, seasonal, and temporary employees of the Authority engaged in the performance of safety-sensitive functions;
- Applicants for or transfers into positions of employment with the Authority involving the performance of safety-sensitive functions; and
- Employees of direct contractors engaged in the performance of safety-sensitive functions for the Authority.

A "safety-sensitive function" means any of the following duties:

- Operating a revenue service vehicle (including when not in revenue service).
- Operating a nonrevenue service vehicle when required to be operated by a holder of a commercial driver's license.
- Controlling dispatch or movement of a revenue service vehicle.
- Maintaining (including repair, overhaul, and rebuilding) a revenue service vehicle or equipment used in revenue service.
- Carrying a firearm for security purposes.

Included in the foregoing are supervisors who in fact perform safety-sensitive functions. Supervisors of covered employees who themselves do not perform safety-sensitive functions are excluded.

All Authority positions and their duties have been reviewed. Attached to this policy as Appendix E is a list of the safety-sensitive position titles identifying the persons subject to drug and alcohol testing based on this review. Every employee of the Authority who performs a safety-sensitive function must participate in this program as a condition of employment.

2. Prohibited Behavior/Drugs

Pursuant to the FTA regulations, all persons covered by this policy are prohibited at all times from using any of the following five (5) substances: marijuana; cocaine; opiates; amphetamines; and phencyclidine. Covered employees may be tested for drugs at any time while on duty. Pursuant to the FTA requirements, each employee covered by this policy will be required to submit to drug testing administered in accordance with any of the following circumstances as described in detail in each case in Section IV.B.1.a. through f. of this policy: pre-employment; post-accident; reasonable suspicion; random; and return to duty/follow-up.

Additionally, separate from any DOT and FTA requirements:

- All persons covered by this policy are prohibited from using any of the following five (5) additional substances: barbiturates; benzodiazepine metabolites; methadone; methaqualone; and propoxyphene.
- The use of a controlled substance¹ by Authority employees at any time is prohibited.
- The use or possession of a controlled substance from the time an employee reports for work until the conclusion of the employee's workday or reporting for work in an impaired condition due to the use of the same is prohibited.
- An employee may not have a controlled substance in his/her system from the time of reporting for work until the conclusion of the workday.
- An employee shall not knowingly accept relief from or permit an employee to work who is under the influence of a controlled substance.
- The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance on Authority property by any person at any time also is prohibited.

¹ "Controlled substance" means any of those substances identified in Schedules I through V of 21 CFR 1308. The terms "drugs" and "controlled substances" are interchangeable and have the same meaning.

3. Prohibited Behavior/Alcohol

a. Alcohol Concentration

All persons covered by this policy are prohibited from reporting to duty or remaining on duty requiring the performance of safety-sensitive functions while having an alcohol concentration of 0.04 or greater. No Authority supervisory person having actual knowledge that a covered employee has an alcohol concentration of 0.04 or greater shall permit the employee to perform or continue to perform safety-sensitive functions.

b. On Duty Use

All persons covered by this policy are prohibited from using alcohol while performing safety-sensitive functions. No Authority supervisory person having actual knowledge that a covered employee is using alcohol while performing safety-sensitive functions shall permit the employee to perform or continue to perform safety-sensitive functions.

c. Pre-Duty Use

(1) General

All persons covered by this policy are prohibited from using alcohol within four (4) hours prior to performing safety-sensitive functions. No Authority supervisory person having actual knowledge that a covered employee has used alcohol within four (4) hours of performing a safety-sensitive function shall permit the employee to perform or continue to perform safety-sensitive functions.

(2) Employees Required to Report for Call

Employees who are in the work book and required to report for call are subject to the restrictions identified in subparagraphs IV.A.3.a, b, and c(1). Upon receiving a call to report to duty, the following shall apply:

- (a) The safety-sensitive employee will be allowed to acknowledge the use of alcohol at the time he/she is called to report to duty and the inability to perform his/her safety-sensitive function.

(b) The safety-sensitive employee must take an alcohol test if the covered employee has acknowledged the use of alcohol but claims the ability to perform his/her safety-sensitive function.

d. Use Following An Accident

Any person required to take a post-accident alcohol test under this policy is prohibited from using alcohol for eight (8) hours following the accident or until he/she undergoes a post-accident test, whichever occurs first.

e. Other Alcohol Related Conduct

No Authority supervisory person shall permit a covered employee tested under the provisions of this policy who is found to have an alcohol concentration of 0.02 or greater but less than 0.04 to perform or continue to perform safety-sensitive functions until:

(1) The employee's alcohol concentration measures less than 0.02; or

(2) The start of the employee's next regularly scheduled duty period, but not less than eight (8) hours following administration of the test.

B. Detection

All covered employees are required to submit to drug and alcohol tests conducted in compliance with 49 CFR Parts 40 and 655.

1. Circumstances for Testing

a. Pre-Employment

All applicants for employment in safety-sensitive positions or employees being transferred into safety-sensitive positions will be informed in writing of the need to pass a required drug test as a condition of employment. No applicant or employee will be hired or transferred into a position involving the performance of safety-sensitive functions unless he/she obtains a verified negative drug test result. When a covered employee or applicant has previously failed or refused a DOT pre-employment drug and/or alcohol test, the employee must provide proof of having successfully completed a referral, evaluation and treatment plan meeting DOT requirements. Additionally, any employee who has not performed

a safety-sensitive function for ninety (90) consecutive calendar days regardless of the reason, and the employee has not been in the Authority's random selection pool during that time, shall be required to take a pre-employment drug test with a verified negative result. If a pre-employment drug test is cancelled, the Authority shall require the applicant or employee to submit to and pass another test. All costs associated with the testing of a split sample shall be borne by the applicant.

b. Reasonable Suspicion Testing

All employees covered by this policy shall submit to drug and/or alcohol tests when the Authority has reasonable suspicion to believe that the covered employee has used a prohibited drug and/or engaged in alcohol misuse. Such requests will be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech, or body odors of the covered employee. The Authority may direct a covered employee to undergo reasonable suspicion testing for alcohol only while the employee is performing safety-sensitive functions; just before the employee is to perform safety-sensitive functions; or just after the employee has ceased performing such functions. A covered employee may be directed to undergo reasonable suspicion testing for drugs at any time while on duty.

A supervisor(s) or other company official(s) who is trained in detecting the signs and symptoms of drug use and alcohol misuse must make the required observations and complete a Condition of Employee Report, a sample of which is attached as Appendix B.

If an alcohol test is not administered within two hours following the determination to conduct a reasonable suspicion test a record stating the reasons the alcohol test was not promptly administered shall be prepared and maintained on file. If an alcohol test is not administered within eight hours following the determination to test, attempts to administer an alcohol test must cease and the record shall be updated with the reason for not administering the test.

c. Post-Accident

All employees covered by this policy who are involved in an accident will be required to submit to a drug and alcohol test. An "accident" is defined under 49 CFR Part 655.4 as an occurrence associated with the operation of an Authority vehicle in which:

- An individual dies;
- An individual suffers a bodily injury and immediately receives medical treatment away from the scene of the accident;
- The public transportation vehicle involved is a bus, van, or automobile in which one or more vehicles (including non-FTA funded vehicles) incurs disabling damage as a result of the occurrence and is transported away from the scene by a tow truck or other vehicle; or
- The public transportation vehicle involved is a railcar and is removed from operation.

In the case of any accident involving a fatality, each surviving safety-sensitive employee operating the Authority vehicle at the time of the accident will be tested. Additionally, any other safety-sensitive employees whose performance could have contributed to the accident, as determined by the Authority using the best information available at the time of the accident, will be tested.

In the case of any accident not involving a fatality, each safety-sensitive employee operating the Authority vehicle at the time of the accident will be tested unless the Authority determines, using the best information available at the time of the decision, that the safety-sensitive employee's performance can be completely discounted as a contributing factor to the accident. Additionally, for all nonfatal accidents, any other safety-sensitive employees whose performance could have contributed to the accident, as determined by the Authority using the best information available at the time of the accident, will be tested.

Disabling damage means damage which prevented the departure of any vehicle from the scene of the occurrence in its usual manner in daylight after simple repairs. Disabling damage includes damage to vehicles that could have been operated but

would have been further damaged if so operated, but does not include damage which can be remedied temporarily at the scene of the occurrence without special tools or parts, tire disablement without other damage even if no spare tire is available, or damage to headlights, tail lights, turn signals, horn, or windshield wipers that makes them inoperative.

A decision not to administer a drug and alcohol test under this section, using the best available information at the time of the determination that the employee's performance could not have contributed to the accident, must be documented in detail, including the decision-making process used to reach the decision not to test.

Post-accident drug tests will be performed as soon as possible but no later than thirty-two (32) hours following the accident. Post-accident alcohol tests will be performed within two (2) hours but no later than eight (8) hours following the accident. If an alcohol test is not administered within two (2) hours following the accident, the Authority will prepare and maintain a record stating the reason(s) the test was not so administered. If an alcohol test still is not administered within eight (8) hours following the accident, all attempts to administer the test will cease.

If the Authority is not able to complete testing during this time frame, the Authority may utilize testing performed by Federal, State, or local officials to effectuate the purposes of this policy. The Authority will only utilize such testing when the testing conforms to the applicable Federal, State, or local testing requirements.

Nothing in this section shall be construed to require the delay of necessary medical attention for the injured following an accident or to prohibit a covered employee from leaving the scene of an accident for the period necessary to obtain assistance in responding to the accident or to obtain necessary emergency medical care.

An employee subject to post-accident testing who fails to remain available for such testing, including notifying the Authority of his/her location after leaving the scene of the accident, may be deemed to have refused to submit to testing.

d. Random

All employees covered by this policy will be subject to random drug and alcohol testing. The random selection method will be a scientifically valid method, such as a random number table or a computer-based random number generator. Testing rates will meet or exceed the minimal annual percentage rate set each year by the DOT Administrator. The current year testing rates can be viewed on the Internet at <http://www.dot.gov/odapc/random-testing-rates>. The dates for administering unannounced testing of randomly-selected covered employees shall be spread reasonably throughout the calendar year including all days and hours during which safety-sensitive functions are performed, so as to ensure that all employees have a reasonable expectation that they might be called for a test on any day they are at work. Once the employee has been notified of selection for testing, the employee will be required to report immediately to the designated collection site.

Each employee selected for testing shall be tested during the selection period. A covered employee shall only be randomly tested for alcohol misuse just before, during, or after the performance of safety-sensitive functions by the employee. A covered employee may be randomly tested for prohibited drug use anytime while on duty.

Employees may only be excused from random testing if they have not reported for work for a legitimate reason. All employees who are available for testing shall be tested.

e. Return to Duty

Any employee returning to a safety-sensitive position following a verified positive drug test result, an alcohol result of 0.04 or greater, or a refusal to submit to a test, will be required to be evaluated by a SAP, complete a SAP recommended treatment and/or education program, and complete a return to duty test with a negative test result.

The employee must have a verified negative drug test result and/or alcohol test result of less than 0.02 to return to duty to perform a safety-sensitive function. If a drug test is cancelled, the employee will be subject to and required to pass another drug test.

In accordance with the federal regulations 49 CFR Part 40 Section 40.67, effective August 31, 2009, all return to duty drug testing will be conducted under direct observation.

f. Follow-Up

An employee who is allowed to return to duty to perform a safety-sensitive function following a verified positive drug test result, an alcohol test of 0.04 or greater, or a refusal to submit to a test will be subject to unannounced follow-up testing for at least twelve (12) months but not more than sixty (60) months. The frequency and duration of the follow-up testing will be determined by the SAP, but subject to the conducting of a minimum of six (6) tests during the first twelve (12) months after the employee has returned to duty. The SAP shall document the basis upon which a determination of follow-up testing in excess of both twelve (12) months and twenty four (24) months has been made.

In accordance with the federal regulations 49 CFR Part 40 Section 40.67, effective August 31, 2009, all follow-up testing will be conducted under direct observation.

Follow-up testing is separate from and in addition to the Authority's random testing program. Employees subject to follow-up testing also will remain in the standard random pool and will be tested whenever subject to random testing, even if as a result the employee is tested twice in the same month, week, or day.

The requirements of the SAP's follow-up plan "follow the employee" to subsequent employers or through breaks in service.

g. Non-FTA Testing

Separate from any FTA requirements, all applicants for employment in safety-sensitive positions or employees being transferred or reinstated into safety-sensitive positions will be required to submit to and pass a pre-employment drug and/or alcohol test administered as part of the pre-employment physical examination. If a pre-employment drug or alcohol test is cancelled, the Authority shall require the applicant to submit to and pass another test.

Also separate from any FTA requirements, the Authority requires that all employees covered by this policy submit to a drug and alcohol test:

- (i) In the event of an accident or any other incident involving a possible claim of injury or property damage not otherwise covered by the FTA regulations. At least one (1) non-bargaining unit employee shall complete a Condition of Employee Report.
- (ii) Based upon a physician's objective medical judgment.
- (iii) During a return to duty physical examination not otherwise covered by the FTA regulations for any employee performing or supervising an operating function.
- (iv) To satisfy EAP requisites.
- (v) When the Authority has reasonable suspicion to believe that a covered employee has used a prohibited drug and/or engaged in alcohol misuse when the employee is on Authority property or during the employee's tour of duty but is not otherwise covered by the FTA regulations.

2. Conduct that Constitutes a Refusal to Submit to a Test

The following conduct will be regarded by the Authority as a refusal to submit to a drug and/or alcohol test:

- Failure to appear for any test (except a pre-employment test) within the time allotted by the Authority after being directed to do so by the Authority.
- Failure to remain at the testing site until the testing process is complete; provided that an employee who leaves the testing site before the testing process commences for a pre-employment test is not deemed to have refused to test.
- Failure to provide a specimen; provided that an employee who does not provide a specimen because he/she has left the testing site before the testing process commences for a pre-employment test is not deemed to have refused to test.

- Failure to provide a sufficient amount of urine or breath, and it has been determined, through a required medical evaluation, that there was no adequate medical explanation for the failure.
- Failure to permit a directly observed or monitored collection when required per CFR 49 Part 40 Section 40.67.
- Failure or declining to take a second test the Authority or collector has directed the employee to take.
- Failure to undergo a medical examination or evaluation as required. In the case of a pre-employment drug test, the employee is deemed to have refused to test on this basis only if the pre-employment test is conducted following a contingent offer of employment.
- Failure to sign the certification at Step 2 of the Alcohol Testing Form.
- Failure to cooperate with any part of the testing process. (e.g. refuse to empty pockets when directed by the collector, behave in a confrontational way that disrupts the collection process, fail to wash hands after being directed to do so by the collector).
- For an observed collection, failure to follow the observer's instructions to raise clothing above the waist, lower clothing and underpants, and to turn around to permit the observer to determine if the employee has any type of prosthetic or other device that could be used to interfere with the collection process.
- Possessing or wearing a prosthetic or other device that could be used to interfere with the collection process.
- Admitting to the collector or MRO that the employee adulterated or substituted the specimen.
- An adulterated or substituted test result verified by an MRO.

V. METHODOLOGY

The Authority's testing program will conform to the standards established by the DOT in 49 CFR Part 40 as amended. All employees subject to testing under this policy will be given notice of the implementation of the policy. The Authority will make copies of 49 CFR Parts 40 and 655 readily available upon request of any employee subject to testing under this policy.

Separate from any FTA and DOT requirements, all Authority-mandated drug testing will be performed to detect for the presence of the following five (5) substances: barbiturates; benzodiazepine metabolites; methadone; methaqualone; and propoxyphene, in addition to the five substances tested under the DOT testing regulations. Cutoff levels for the substances tested under the DOT testing regulations are those provided in 49 CFR Part 40.

The following initial cutoff levels will be used when screening the specimens to determine whether they are negative for these additional five (5) drugs or classes of drugs:

Drug	Cutoff Levels (ng/ml)
Barbiturates	300
Benzodiazepine metabolites	300
Methadone	300
Methaqualone	300
Propoxyphene	300

The following confirmatory cutoff levels will be used:

Drug	Cutoff Levels (ng/ml)
Barbiturates	150
Benzodiazepine metabolites	150
Methadone	150
Methaqualone	150
Propoxyphene	150

VI. ENFORCEMENT OF POLICY

A. Consequences of Verified Positive Drug Test, Refusal to Submit to a Drug Test, or Other Violation of the Policy

1. Applicants for Employment

An applicant for employment covered under this policy who has a verified positive drug test result or refuses to submit to a drug test will be provided with a list of SAP's.

Additionally, separate from any FTA mandated requirements, any applicant for employment covered under this policy who has a verified positive drug test result, refuses to submit to a drug test, or violates any other provision of this policy will be disqualified from consideration for employment with the Authority for a period of at least one (1) year from the date of testing.

2. Employees

Any covered employee who has a verified positive drug test result or refuses to submit to a drug test will be removed immediately from performing any safety-sensitive function until or unless the employee successfully completes the return to duty process set forth in 49 CFR 40 Subpart O.

Additionally, separate from any FTA mandated requirements, any employee covered under this policy who has a verified positive drug test result, refuses to submit to a drug test, or violates any other provision of this policy will be subject to the provisions contained in Attachment H of the parties' collective bargaining agreement.

B. Consequences of Misuse of Alcohol, Refusal to Submit to an Alcohol Test, or Other Violation of the Policy

Any covered employee who has an alcohol concentration of 0.04 or greater or refuses to submit to an alcohol test, will be removed immediately from performing any safety-sensitive function, until or unless the employee successfully completes the return to duty process set forth in 49 CFR 40 Subpart O.

Additionally, separate from any FTA mandated requirements, any employee covered under this policy who has an alcohol concentration of 0.04 or greater, refuses to submit to a test, or violates any other provision

of this policy will be subject to the provisions contained in Attachment H of the parties' collective bargaining agreement.

In the event of a positive alcohol test of 0.02 or greater but less than 0.04, the employee shall not be permitted to perform or to continue to perform safety-sensitive functions until:

- (a) The employee's alcohol concentration measures less than 0.02; or
- (b) The start of the employee's next regularly scheduled duty period, but not less than eight (8) hours following administration of the test.

C. Union Involvement

Separate from any FTA or DOT requirement, if the Authority orders an employee to submit to a drug and/or alcohol test:

- With respect to Sections IV.B.1.b, IV.B.1.c., and IV.B.1.g.i, and IV.B.1.g.iv, the Authority shall make a good faith effort to allow the employee being ordered to submit to the test to have the opportunity to consult with a Union representative before submitting to the test, provided, however, that the failure of the Union representative to be present within thirty (30) minutes after notification to the Union in accordance with the procedure set forth below shall in no way affect the requirement of submission to the test if any of the conditions set forth in Sections IV.B.1.b, IV.B.1.c., IV.B.1.g.i, and IV.B.1.g.iv has been met.

- With respect to Section IV.B.1.g.ii, the Authority shall allow the employee being ordered to submit to the test a reasonable opportunity to consult with a Union representative before submitting to the test unless the consultation would result in a delay in administering the test.

As regards the foregoing, the Authority shall notify Local Unions 241 and 308 that one of its bargaining unit employees is being ordered to submit to testing as follows:

- Between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, the Authority shall call the Union at the Union office at the following telephone numbers, Local 241 at (312) 341-1733, or Local 308 at (312) 782-4665.

- At all other times, the Authority shall call the Union at the telephone number of the Board member at the specific location.

The Union reserves the right to change said notification telephone numbers upon fourteen (14) days advance written notice to Human Resources..

Notification to the Union is not necessary if a Union representative is present at the time the request is made, or if a situation exists which reasonably prevents the Authority from notifying the Union. In the event the Authority fails to notify the Union because it claims to have been reasonably prevented from doing so, the burden of showing such will be on the Authority.

The Authority shall, upon written permission of the employee, notify the Union of the results of any alcohol test within sixty (60) hours after the employee has submitted to the test and/or within sixty (60) hours after the MRO has verified a positive drug test result with the employee; except that results of tests conducted pursuant to Section IV.B.1.g.iii shall be reported only where positive and results of tests pursuant to Section IV.B.1.g.iv shall be reported only where the employee has been found fit to work and the test results are positive. The Authority shall make available to the Union a copy of the written report from the laboratory within twenty-four (24) hours after the report is received by the Authority upon written permission of the employee.

Employees shall be reinstated to active status pending the result of any drug and alcohol test conducted pursuant to Sections IV.B.1.c. or IV.B.1.g.iii. If the test results show the presence of any controlled substance or alcohol, the employee shall be removed from service immediately and the Authority shall take further action consistent with the terms and provisions of this policy.

If the results of a drug test show the presence of any controlled substance, the employee shall have the right to request the split portion of the sample to be sent for testing to another DHHS-certified laboratory for analysis within seventy-two (72) hours of notification by the MRO to the employee of the positive test. All the costs associated with the storage of the split sample shall be borne by the Union.

D. Consequences of Negative Test for Employees

Separate from any FTA or DOT requirements, if the analysis of the employee's urine and/or breath specimen procured in connection with a drug or alcohol test conducted pursuant to Sections IV.B.1.b or IV.B.1.g establishes that the specimen is negative for the presence of controlled substances in conformity with 49 CFR Part 40 as amended, the employee shall be compensated for all time lost from work directly attributable to the order to take the test, provided there are no other rule violations which give rise to the order to take the test. Additionally, the employee shall be compensated at the rate of one and one-half (1 ½) times the employee's straight time hourly rate for all hours or portions thereof in excess of his/her scheduled work day that the employee is involved in activities directly attributable to the order to take the test. Further, if the order by the Authority to submit to the test has been made pursuant to Section IV.B.1.b

above, and the analysis shows the employee is to be considered to have been unimpaired, the employee shall have the right to request a meeting to include the employee, a Union Representative, a member of the Human Resources Department, and the person who requested the employee to take the test. The Union shall notify the Authority in writing within fourteen (14) days after the results of the tests are available of the employee's request for a meeting, and the meeting shall be scheduled at the convenience of the parties, but no later than fourteen (14) days after receipt by the Authority of the request, circumstances permitting. Whenever possible, the meeting will be scheduled during the employee's regular working hours, and the employee will be compensated at his/her regular rate of pay for any time lost. In the event the meeting cannot be scheduled during the employee's regular working hours, the employee shall be paid an amount equal to four (4) hours pay as compensation for the time spent at the meeting.

E. Dilute Specimen

Negative dilute results with a creatinine concentration equal to or greater than 2mg/dL, but less than or equal to 5mg/dL, will require an immediate recollection under direct observation. Negative dilute results of greater than 5mg/dL will require the employee to take another test immediately. Should this second test result in a negative dilute result, the test will be considered a negative and no additional testing will be required unless directed to do so by the MRO.

VII. GRIEVANCE-ARBITRATION PROCEDURE

Separate from any FTA or DOT requirement, any dispute concerning this policy shall be subject to the parties' grievance-arbitration procedures contained in their collective bargaining agreement.

VIII. APPLICABILITY OF POLICY TO AUTHORITY CONTRACTORS

All Authority contractor employees, and employees of third party contractors which operate transportation service for Authority contractors, who are engaged in the performance of safety-sensitive functions for the Authority are subject to the provisions of 49 CFR Parts 40 and 655, including the adoption of a drug and alcohol policy which complies with these regulations. Any contractor employee who violates these provisions will not be allowed to perform safety-sensitive functions in the Authority-funded service.

Contractors are required to ensure compliance with the applicable provisions of 49 CFR Parts 40 and 655 and must provide timely data to the Authority, as requested by the Authority, in order that the Authority may include such information in its mandated reports to the DOT and FTA. The Authority will make every reasonable effort to assist contractors in compliance, which may include offering Authority-obtained services for testing, MRO, and SAP reviews, and education and training, for the fee(s) charged to the Authority.

IX. ATTACHMENT G - COLLECTIVE BARGAINING AGREEMENT

This policy amends relevant sections of Attachment G to the parties' collective bargaining agreement.

MEMORANDUM OF UNDERSTANDING

(a) To the extent any inconsistencies arise between the Chicago Transit Authority Drug and Alcohol Policy and Testing Program for Safety-Sensitive Employees ("the Policy") and any federal, state, or local laws, regulations, and ordinances, the latter shall control and shall supercede any inconsistent provisions of the Policy.

(b) Appendix E: List of Safety-Sensitive Employees attached to the Policy set forth certain classifications of employees that the Authority deems to be "safety-sensitive" employees. Locals 241 and 308 preserve any and all claims and defenses either may have relative to whether any particular classification of employee has been properly included or excluded from Appendix E.

APPENDIX D

DRUG AND ALCOHOL TEST PROTOCOL FORM 0762

COLLECTION PROTOCOL FOR URINE SPECIMEN (Effective 08/31/09)

1. Upon receiving notification that you must submit to a drug test, you must report directly to the testing area. Upon completing the test, you must report back to your manager/supervisor.
2. You will be required to provide your CTA photo ID for positive identification purposes. Facsimiles or photocopies of identification will not be accepted. If you do not have your CTA photo ID, a CTA representative will be asked to identify you for the collector.
3. You will be directed to provide your CTA ID numbers to be written on the drug testing custody and control form (CCF) by the collector.
4. You will be directed to verify that the information contained under Step 1, Section C of the CCF is correct. The collector will ask you to verify this information.
5. You will be shown these protocols which explain the basic collection procedure. You will also be shown the instructions contained on the reverse side of the CCF.
6. You will be directed to remove outer clothing (e.g. sweatshirt, jacket, coat, hat). You must leave these garments and any briefcase, purse, or other personal belongings with the collector. Failure to comply with these directions will constitute a refusal to test. You may keep your wallet.
7. You will be directed to empty your pockets and display the items in them to the collector.
8. You are not to fill in the CCF medications that you are currently taking. (You may make notes of medications on the back of the Donor copy of the CCF for your own convenience, but these notes must not be transmitted to anyone else.)
9. You will be instructed to wash and dry your hands. You may not wash your hands again until after delivering the urine specimen to the collector. You will not be given further access to water or other materials that could be used to adulterate or dilute a urine specimen.
10. You will be directed to select an individually wrapped or sealed collection container from collection kit materials. You must unwrap or break the seal of the collection container. You will not be allowed to take anything from the collection kit into the room used for urination except the collection container.
11. You will be directed to go into a private restroom or closed stall for collection. There you must provide a urine specimen of at least 45 mL. If you fail to provide either a urine specimen or a urine specimen of sufficient quantity, you will be given no more than three hours to produce a satisfactory urine specimen. **NOTE: An attempt to provide a urine specimen is required.**
12. If the drug test is a return-to-duty test or a follow-up test, it must be conducted under direct observation. Directly observed collection procedures require that the employee raise his/her shirt, blouse, or dress/skirt, as appropriate, above the waist; and lower clothing and underpants to show the observer (of the same gender as the employee) by turning around that the employee does not have a prosthetic device. After it has been determined that the employee does not have such a device, the employee is permitted to return clothing to its proper position for observed urination. The observer then watches the employee urinate into the collection container. Specifically, the observer watches the urine go from the employee's body into the collection container.
13. Do not flush the toilet. Return the urine specimen to the collector as soon as you have completed the void. At no time will the urine specimen be left unattended.
14. Following the collection, the collector will ensure that a sufficient amount of urine (Cred.) was provided. Within four minutes after being given the urine specimen, the collector will check the temperature of the urine specimen to ensure it is within the acceptable range of 32-38° C (90-102° F). The collector will also check for signs of tampering.
15. In your presence, the collector will do the following:
 - a. Check the box on the CCF (Step 2) indicating that this was a valid specimen collection.
 - b. Show you that the seals on the urine specimen bottles are intact.
 - c. Break the seal on the urine specimen bottles in your presence.
 - d. Pour at least 30 mL of urine from the collection container into one urine specimen bottle to be used for the primary urine specimen.
 - e. Pour at least 15 mL of urine from the collection container into the second urine specimen bottle to be used for the split specimen.
 - f. Place and secure the labels on the bottles.
 - g. Seal the bottles by placing the tamper-evident bottle seals over the bottle caps/locks and down the sides of the bottles.
 - h. Write the date on the tamper-evident bottle seals.
16. You will then be directed to initial the tamper-evident bottle seals for the purpose of certifying that the bottles contain the urine specimen you provided.
17. You will be directed to read and sign the certification statement on the Medical Review Officer copy of the CCF and to provide your printed name, the current date, day and evening contact telephone numbers, and (where required) date of birth.
18. Following completion and review of the CCF by the collector, you will be given the Donor copy of the CCF. The collector will place the sealed urine specimen bottles and the Laboratory copy of the CCF in the appropriate pouches of the plastic bag. The collector will secure both pouches of the plastic bag. You and the collector will initial the tamper-evident bag. You will then be directed to leave the collection site.

COLLECTION PROTOCOL FOR ALCOHOL BREATH TESTING
(Effective 08/25/08)

1. Upon receiving notification that you must submit to an alcohol test, you must report directly to the testing area. Upon completing the test, you must report back to your manager/supervisor.
2. You will be required to provide your CTA photo ID for positive identification purposes. Faxes or photocopies of identification will not be accepted. If you do not have your CTA photo ID, a CTA representative will be asked to identify you for the Breath Alcohol Technician (BAT).
3. You will be directed to provide your CTA ID number to be written on the alcohol testing form (ATF) by the BAT.
4. You will be directed to verify that the information contained under Step 1, Sections A and B of the ATF is correct. The BAT will ask you to verify this information.
5. You will be shown these protocols which explain the testing procedure. You will also be shown the instructions contained on the reverse side of the ATF.
6. You will be directed to complete Step 2 on the ATF and to sign the certification. Refusal to sign this certification will constitute a refusal to test.
7. You will be directed to select an individually wrapped or sealed mouthpiece from the testing materials. The BAT will open the individually wrapped or sealed mouthpiece and insert it into the Evidential Breath Testing Device (EBT).
8. You will be instructed to blow steadily and forcefully into the mouthpiece for at least six seconds or until the device indicates that an adequate amount of breath has been obtained.
9. If you are unable to provide a sufficient amount of breath on the first attempt, you will be given another opportunity to provide a sufficient amount of breath. Refusal to make this attempt will constitute a refusal to test.
10. The BAT will show you the displayed test result.
11. If the test result is an alcohol concentration of less than 0.02, no further testing will be conducted.
12. If the test result is an alcohol concentration of 0.02 or higher, you will be directed to take a confirmation test following a waiting period of at least 15 minutes.

Additionally:

- a. Concerning the waiting period, you will be told:
 - i. Not to leave the immediate testing area.
 - ii. Not to eat, drink, put anything (e.g. cigarette, chewing gum) into your mouth, or belch.
 - iii. The reason for the waiting period (i.e. to prevent an accumulation of mouth alcohol from leading to an artificially high reading).
 - iv. That following these instructions concerning the waiting period is to your benefit; and
 - v. That the confirmation test will be conducted at the end of the waiting period, even if the waiting period instructions have not been followed.
- b. While in your presence, the BAT will conduct an air blank on the EBT before beginning the confirmation test. You will be shown the reading. The test will proceed following an air blank reading of 0.00.
- c. The BAT will open the individually wrapped or sealed mouthpiece and insert it into the EBT. You will then be instructed to read the sequential test number displayed on the EBT.
- d. You will be instructed to blow steadily and forcefully into the mouthpiece for at least six seconds or until the device indicates that an adequate amount of breath has been obtained. The BAT will show you the displayed test result as well as the unique test number printed out by the EBT.
- e. If the result of the confirmation test is lower than 0.02, nothing further will be required of you.
- f. If the result of the confirmation test is 0.02 or higher, you will be directed to sign and date Step 4 of the ATF.

APPENDIX C:	DRUG AND ALCOHOL TEST NOTIFICATION
APPENDIX D:	DRUG AND ALCOHOL TEST PROTOCOL

I. OVERVIEW

In a document styled "Chicago Transit Authority Drug and Alcohol Policy and Testing Program for Safety Sensitive Employees" ("the FTA Policy"), the Chicago Transit Authority ("the Authority") set forth a drug and alcohol policy and testing program developed to comply with the requirements of federal laws and regulations promulgated by the Federal Transit Administration ("FTA") and the Department of Transportation ("DOT"). As required by the FTA and the DOT, the FTA Policy was limited in its application to only those employees of the Authority engaged in the performance of safety-sensitive functions. This document sets forth the drug and alcohol policies and testing programs mandated by the Authority, but not required by the FTA or the DOT for employees of the Authority who do not perform safety-sensitive functions. This document has been adopted by the Chicago Transit Authority Board of Directors pursuant to resolution.

In adopting this policy, the Authority does not otherwise waive its right to enforce already established rules, policies, programs, or the terms and provisions of any applicable collective bargaining agreement governing drug and alcohol use or possession that are not inconsistent with this policy. Moreover, this document is intended to be read consistent with and subject to any otherwise applicable law or regulation presently in effect or which in the future may take effect. If any section or provision of this document should be held invalid by operation of law, none of the remainder shall be affected.

II. INTRODUCTION

A. Policy and Program Purposes

The Authority performs a vital service for the public. To ensure that this service is delivered safely, efficiently, and effectively, each employee of the Authority has the responsibility to perform his/her duties in a safe, conscientious, and courteous manner.

The purpose of this policy is to establish guidelines to maintain a drug and alcohol-free workplace and to reduce the probability of accidents or incidents related to the use and/or misuse of alcohol and other drugs by employees so that transit services are delivered safely, efficiently, and effectively.

This policy outlines four principles as a means to achieve the Authority's goal of providing a workplace free from the effects of drug and alcohol use and/or misuse for its employees. The first principle emphasizes deterrence from the use of drugs and alcohol in or affecting the workplace. The Authority will make education and training available for all employees regarding the effects of substance abuse on individuals and in the workplace. Supervisors and managers will receive specialized training in detection, early intervention, and enforcement.

The second principle is treatment and rehabilitation. The Authority maintains an Employee Assistance Program ("EAP") to assist employees with personal problems, including those surrounding the misuse of drugs and alcohol.

The Authority supports rehabilitation before an employee's job is in jeopardy. Although employees are encouraged to receive help for drug and alcohol problems, participation in the Authority's EAP will not excuse an employee's failure to comply with rules and regulations of the Authority. Nor will it preclude discipline for rule or policy violations.

The third principle is detection. Toward this end, the Authority employs six (6) drug and/or alcohol tests in the following circumstances: pre-employment, reasonable suspicion, post-accident, based upon a physician's objective medical judgment, return to duty, and to satisfy EAP requirements. The foregoing drug and alcohol test policy will apply to all full-time, part-time, seasonal, and temporary employees of the Authority not otherwise engaged in the performance of safety-sensitive functions. It also applies to applicants for positions of employment not otherwise involving the performance of safety-sensitive functions.

The fourth principle is enforcement, which is essential if deterrence, rehabilitation, and detection are to be successful. All employees must be fit for duty as defined within this policy. Accordingly, the manufacture, distribution, dispensing, possession, or use of a drug or controlled substance contrary to the terms of this policy, and the use or possession of intoxicants contrary to the terms of this policy are prohibited.

B. Employee and Management Responsibilities

All employees of the Authority covered by this policy are required to refrain from using drugs and alcohol contrary to the specific prohibitions identified herein. The Authority's Vice President, Human Resources (or a designated representative) will monitor Department practices to ensure compliance with and answer any questions concerning the information presented in this policy. Contact information for the Vice President, Human Resources and additional program personnel is contained in Appendix A.

Employees are responsible for ensuring adherence to this policy. Managers and supervisors will be held accountable for both the application of the policy and the consistency of its enforcement. To that end, the Authority prohibits the discriminatory application, implementation, or enforcement of any provision of this policy on the basis of race, color, age, sex, religion, national origin and ancestry, sexual orientation, veteran status, disability, or any other basis protected by federal, state, or local laws.

C. Confidentiality

Confidentiality will be maintained throughout the drug and alcohol screening process. The Authority will maintain records in a manner so that the disclosure of information to unauthorized persons does not occur. Additionally, the Authority, the specimen collection site, testing laboratory, medical review officer, ("MRO"), breath alcohol technician ("BAT"), and the substance abuse professional ("SAP") will be held to the strict confidentiality requirements consistent with FTA and DOT testing regulations and applicable federal, state, and local laws.

EAP personnel will be expected to carry out all actions relative to this policy in a manner which respects the dignity and confidentiality of those involved. EAP records are regarded as confidential medical records and are not available for inspection by anyone except EAP staff absent a written release of information by the employee. EAP personnel will release information to personnel of the Authority only on a need-to-know basis subject to advance notice to the employee. In any case where the employee raises a claim against the Authority involving the quality of care or services rendered by the EAP, the employee shall be deemed to have waived his/her right to confidentiality and the Authority shall have the right to explore thoroughly and evaluate the employee's participation in the EAP.

A covered employee is entitled, upon written request, to obtain copies of any records pertaining to the employee's use of prohibited drugs or alcohol, including any records pertaining to his/her drug or alcohol tests. The Authority shall promptly provide the records requested by the employee. Access to an employee's records shall not be contingent upon payment for records other than those specifically requested.

III. IMPLEMENTATION GUIDELINES FOR PROMOTING A DRUG- AND ALCOHOL-FREE WORKPLACE

A. Deterrence

1. Fitness for Duty

The Authority has determined that an employee is fit for duty when he/she is able to perform his/her job duties, including when he/she is ready for work or working without the presence of any alcohol or the presence of any specified drugs or their metabolites as prescribed by this policy. Employees must understand that they are responsible for assuring that their job conduct is safe and appropriate.

An employee is "on duty" or "subject to duty" within the meaning of this provision:

- On his/her regularly scheduled days from the time he/she arrives on the property until the time he/she completes his/her work assignments and leaves the property.
- When reporting for a physical examination as a requirement of his/her position of employ.
- When the employee has volunteered or has been assigned extra work in his/her day off or vacation.
- Prior to the start of duty, when told in advance that he/she is expected to be on duty within the next eight (8) hours.

2. Reporting the Use of Prescription Drugs or "Over-the-Counter" Medication

All employees are required to report to the Authority the use of prescription drugs and "over-the-counter" medication if the physical, mental, or emotional health of the employee is impaired or becomes impaired or changes significantly through the use of such a prescription drug or "over-the-counter" medication. A physician designated by the Authority will make the determination as to whether there is a possibility that the employee's performance of essential functions of the job may be affected or compromised by the employee's use of any such drug or medication or that the safety of the employee, his/her co-workers, or the public is, or could be, in jeopardy. If it is concluded that there is such a possibility and a reasonable accommodation pursuant to the Americans with Disabilities Act cannot be made, the employee will be considered unfit for duty and will be removed from service. The employee will remain out of service but only for such a reasonable period of time as is necessary for the employee to be cleared to return to work by an Authority-designated physician.

Employees who fail to report their use of prescription drugs or "over-the-counter" medication in accordance with this section, and subsequently have a confirmed positive drug or alcohol test, are subject to progressive discipline up to and including discharge.

3. Education and Training

The Authority recognizes that education and training of its workforce and supervisors are major components of a successful drug and alcohol program. To that extent:

- All employees subject to testing under this policy will be given notice of the implementation of the policy.
- The Authority will display and distribute informational material about the effect of drugs along with a community service hotline telephone number to assist employees who may be experiencing problems with prohibited drugs.
- The Authority will distribute informational material about the signs and symptoms of an alcohol problem and the effects of alcohol misuse on an individual's health, work, and personal life.

In addition to the foregoing, the Authority will consider and implement such education and training programs as will help promote safety goals, maintain the integrity of the Authority's drug and alcohol testing program, and enhance the benefits of that program.

B. Treatment and Rehabilitation--Employee Assistance Program ("EAP")

In order to promote a drug and alcohol-free environment, the Authority will work to assist eligible employees with problems due to the use of drugs or misuse of alcohol. Accordingly, the Authority has established and encourages the use of its Employee Assistance Program ("EAP"). The EAP was established in part so that an employee who recognizes that he/she has a drug use or alcohol misuse problem may have the opportunity to receive treatment and rehabilitation.

The Authority's EAP will assist eligible employees with drug use and alcohol misuse problems, and related concerns, through one or more of the following, depending upon the circumstances of each particular case:

- Consultation with supervisors and/or other Authority officials.
- Evaluation and referral.
- Individual and group counseling.
- Individual case management.
- Crisis intervention.
- Specialized education and training programs.

Although employees are encouraged to receive help for drug and alcohol problems, participation in the Authority's EAP will not excuse an employee's failure to comply with rules and regulations of the Authority. Nor will it preclude discipline for rule or policy violations. Employees are directed to any pertinent collective bargaining agreement for the terms and provisions of, and restrictions and benefits attendant to, EAP participation. Any questions regarding the Authority's EAP should be referred to the Authority's Vice President, Human Resources (or a designated representative).

IV. PROVISIONS FOR DRUG AND ALCOHOL TESTING

A. General Conditions

1. Persons Subject to Testing

The following persons will be subject to drug and alcohol testing pursuant to the terms of this policy and must participate in this program as a condition of employment:

- All full time, part time, seasonal, and temporary employees of the Authority not otherwise engaged in the performance of safety-sensitive functions; and

-
- Applicants for positions of employment with the Authority not otherwise involving the performance of safety-sensitive functions.

A "safety-sensitive function" means any of the following duties:

- Operating a revenue service vehicle (including when not in revenue service).
- Operating a nonrevenue service vehicle when required to be operated by a holder of a commercial driver's license.
- Controlling dispatch or movement of a revenue service vehicle.
- Maintaining (including repair, overhaul, and rebuilding) a revenue service vehicle or equipment used in revenue service.
- Carrying a firearm for security purposes.

Included in the foregoing are supervisors who in fact perform safety-sensitive functions. Supervisors of covered employees who themselves do not perform safety-sensitive functions are excluded and, accordingly, subject to testing under this policy.

2. Prohibited Behavior/Drugs

All persons covered by this policy are subject to the following rules:

- The use of a controlled substance¹ by Authority employees at any time is prohibited.
- The use or possession of a controlled substance from the time an employee reports for work until the conclusion of the employee's workday or reporting for work in an impaired condition due to the use of the same is prohibited.
- An employee may not have a controlled substance in his/her system from the time of reporting for work until the conclusion of the workday.
- An employee shall not knowingly accept relief from or permit an employee to work who is under the influence of a controlled substance.

¹ "Controlled substance" means any of those substances identified in Schedules I through V of 21 CFR 1308. The terms "drugs" and "controlled substances" are interchangeable and have the same meaning.

- The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance on Authority property by any person at any time also is prohibited.

3. Prohibited Behavior/Alcohol

a. Alcohol Concentration

All persons covered by this policy are prohibited from reporting to duty or remaining on duty while having an alcohol concentration of 0.04 or greater. No Authority supervisory person having actual knowledge that a covered employee has an alcohol concentration of 0.04 or greater shall permit the employee to work or continue to work.

b. On Duty Use/Possession

All persons covered by this policy are prohibited from using or possessing alcohol while on duty. No Authority supervisory person having actual knowledge that a covered employee is using alcohol while on duty shall permit the employee to work or continue to work.

c. Pre-Duty Use

(1) General

All persons covered by this policy are advised against the use of alcohol within four (4) hours prior to reporting for duty.

(2) Employees Required to Report for Call

Employees who are in the work book and required to report for call are subject to the restrictions identified in subparagraphs IV.A.3.a, b, and c(1). Upon receiving a call to report to duty, the following shall apply:

(a) The employee will be allowed to acknowledge the use of alcohol at the time he/she is called to report to duty and the inability to perform his/her assigned work.

(b) The employee must take an alcohol test if the covered employee has acknowledged the use of alcohol but claims the ability to perform his/her assigned work.

d. Use Following An Accident

Any person required to take a post-accident alcohol test under this policy is prohibited from using alcohol until he/she undergoes a post-accident test, whichever occurs first. Such a test shall be concluded no later than eight (8) hours after the accident occurs.

B. Detection

1. Circumstances for Testing

a. Applicants

No applicant for employment will be hired, transitioned, or rehired into a position by the Authority unless he/she passes a pre-employment drug test. The test will be administered as part of the pre-employment physical examination. If a pre-employment drug test is cancelled, the Authority shall require the applicant to submit to and pass another test.

b. Employees

When ordered to do so by the Authority, an employee covered by this policy shall submit to a drug and alcohol test:

- (i) In the event of an accident or any other incident involving a possible claim of injury or property damage.
- (ii) In the event of an objective observation by at least one (1) non-bargaining unit supervisory employee that an employee:
 - Is or may be impaired in the performance of his/her duties due to the use of alcohol or is displaying behavior that may be associated with controlled substance use; or
 - Is in possession of alcohol, a controlled substance, narcotics of any kind or associated paraphernalia on Authority property.
- (iii) Based upon a physician's objective medical judgment.
- (iv) During a return to duty physical examination.
- (v) To satisfy EAP requisites

2. Conduct that Constitutes a Refusal to Submit to a Test

The following conduct will be regarded by the Authority as a refusal to submit to a drug and/or alcohol test:

- Failure to appear for any test (except a pre-employment test) within the time allotted by the Authority after being directed to do so by the Authority.
- Failure to remain at the testing site until the testing process is complete; provided that an employee who leaves the testing site before the testing process commences for a pre-employment test is not deemed to have refused to test.
- Failure to provide a specimen; provided that an employee who does not provide a specimen because he/she has left the testing site before the testing process commences for a pre-employment test is not deemed to have refused to test.
- Failure to provide a sufficient amount of urine or breath, and it has been determined, through a required medical evaluation, that there was no adequate medical explanation for the failure.
- Failure to permit a directly observed or monitored collection when required.
- Failure or declining to take a second test the Authority or collector has directed the employee to take.
- Failure to undergo a medical examination or evaluation as required. In the case of a pre-employment drug test, the employee is deemed to have refused to test on this basis only if the pre-employment test is conducted following a contingent offer of employment.
- Failure to sign the certification at Step 2 of the Alcohol Testing Form.
- Failure to cooperate with any part of the testing process. (e.g. refuse to empty pockets when directed by the collector, behave in a confrontational way that disrupts the collection process, fail to wash hands after being directed to do so by the collector).
- For an observed collection, failure to follow the observer's instructions to raise clothing above the waist, lower clothing and underpants, and to turn around to permit the observer to determine if the employee has any type of prosthetic or other device that could be used to interfere with the collection process.

- Possessing or wearing a prosthetic or other device that could be used to interfere with the collection process.
- Admitting to the collector or MRO that the employee adulterated or substituted the specimen.
- An adulterated or substituted test result verified by an MRO.

V. METHODOLOGY

The Authority's testing program will conform to the standards established by the DOT in 49 CFR Part 40 as amended. All employees subject to testing under this policy will be given notice of the implementation of the policy. The Authority will make copies of 49 CFR Part 40 readily available upon request of any employee subject to testing under this policy.

All Authority-mandated drug testing will be performed to detect for the presence of the following five (5) substances: marijuana; cocaine; opiates; phencyclidine; and amphetamines. Cut-off levels to be used to determine whether specimens are negative for these five (5) drugs are provided in 49 CFR Part 40.87.

Additionally, all Authority mandated drug testing will be performed to detect for the presence of the following five (5) substances: barbiturates; benzodiazepine metabolites; methadone; methaqualone; and propoxyphene. The following initial cutoff levels will be used when screening specimens to determine whether they are negative for these additional five (5) drugs or classes of drugs:

Drug	Cutoff Levels (ng/ml)
Barbiturates	300
Benzodiazepine metabolites	300
Methadone	300
Methaqualone	300
Propoxyphene	300

The following confirmatory cutoff levels will be used:

Drug	Cutoff Levels (ng/ml)
Barbiturates	150
Benzodiazepine metabolites	150
Methadone	150
Methaqualone	150
Propoxyphene	150

VI. ENFORCEMENT OF POLICY

A. Consequences of Verified Positive Drug Test, Alcohol Concentration of 0.04 or Greater, Refusal to Submit to a Test, or Other Violation of the Policy

1. Applicants for Employment

Any applicant for employment covered under this policy who has a verified positive drug test result, refuses to submit to a test, or violates any other provision of the policy will be disqualified from consideration for employment with the Authority for a period of at least one (1) year from the date of testing.

2. Employees

Any employee who has a verified positive drug test result, an alcohol concentration of 0.04 or greater, refuses to submit to a test administered under this policy, or violates any other provision of the policy may be subject to disciplinary action consistent with already established rules, policies, and procedures of the Authority.

The foregoing is not intended to interfere with an otherwise qualified employee from participating in the Authority's EAP pursuant to the terms of Attachment H to the collective bargaining agreement between the Authority and the Union. Any disciplinary action taken by the Authority under this policy, an employee's right to continued employment with the Authority, and an employee request that he/she be allowed to participate in the EAP shall be evaluated consistent with the terms of such Attachment H.

B. Union Involvement

If the Authority orders an employee subject to a collective bargaining agreement to submit to a drug and/or alcohol test:

- With respect to Sections IV.B.1.b.i and IV.B.1.b.ii, at least one (1) non-bargaining unit employee shall complete a "Condition of Employee Report," a sample of which is attached hereto as Appendix B.

- With respect to Sections IV.B.1.b.i. and IV.B.1.b.ii., the Authority shall make a good faith effort to allow the employee being ordered to submit to the test to have the opportunity to consult with a Union representative before submitting to the test, provided, however, that the failure of the Union representative to be present within thirty (30) minutes after notification to the Union in accordance with the procedure set forth below shall in no way affect the requirement of submission to the test if any of the conditions set forth in Sections IV.B.1.b.i. and IV.B.1.b.ii., has been met.

- With respect to Section IV.B.1.b.iii, the Authority shall allow the employee being ordered to submit to the test a reasonable opportunity to consult with a Union representative before submitting to the test unless the consultation would result in a delay in administering the test.

As regards the foregoing, the Authority shall notify Local Unions 241 and 308 that one of its bargaining unit employees is being ordered to submit to testing as follows:

- Between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, the Authority shall call the Union at the Union office at the following telephone numbers, Local 241 at (312) 341-1733, or Local 308 at (312) 782-4665.
- At all other times, the Authority shall call the Union at the telephone number of the Board member at the specific location.

The Union reserves the right to change said notification telephone numbers upon fourteen (14) days advance written notice to the Authority's Vice President of Human Resources.

Notification to the Union is not necessary if a Union representative is present at the time the request is made, or if a situation exists which reasonably prevents the Authority from notifying the Union. In the event the Authority fails to notify the Union because it claims to have been reasonably prevented from doing so, the burden of showing such will be on the Authority.

C. Consequences of Negative Test for Employees

If the analysis of the employee's urine and/or breath specimen procured in connection with a drug or alcohol test conducted under this policy establishes that the specimen is negative for the presence of controlled substances in conformity with Section V of this policy, the employee shall be compensated for all time lost from work directly attributable to the order to take the test, provided there are no other rule violations which give rise to the order to take the test. Additionally, the employee shall be compensated at the rate of one and one-half (1 ½) times the employee's straight time hourly rate for all hours or portions thereof in excess of his/her scheduled work day that the employee is involved in activities directly attributable to the order to take the test. Further, if the order by the Authority to submit to the test has been made pursuant to Section IV.B.1.b.ii. above, and the analysis shows the employee is to be considered to have been unimpaired, the employee shall have the right to request a meeting to include the employee, a Union Representative, a member of the Human Resources Department, and the person who requested the employee to take the test. The Union shall notify the Authority in writing within fourteen (14) days after the results of the tests are available of the employee's request for a meeting, and the meeting shall be scheduled at the convenience of the parties, but no later than fourteen (14) days after receipt by the Authority of the request, circumstances permitting. Whenever possible, the meeting will be scheduled during the employee's regular working hours, and the employee

will be compensated at his/her regular rate of pay for any time lost. In the event the meeting cannot be scheduled during the employee's regular working hours, the employee shall be paid an amount equal to four (4) hours pay as compensation for the time spent at the meeting.

D. Dilute Specimen

Negative dilute results with a creatinine concentration equal to or greater than 2mg/dL, but less than or equal to 5mg/dL, will require an immediate recollection under direct observation. Negative dilute results of greater than 5mg/dL will require the employee to take another test immediately. Should this second test result in a negative dilute result, the test will be considered a negative and no additional testing will be required unless directed to do so by the MRO.

VII. GRIEVANCE-ARBITRATION PROCEDURE

Separate from any FTA or DOT requirement, any dispute concerning this policy shall be subject to the parties' grievance-arbitration procedures contained in their collective bargaining agreement.

VIII. ATTACHMENT G - COLLECTIVE BARGAINING AGREEMENT

This policy amends relevant sections of Attachment G to the parties' collective bargaining agreement.

MEMORANDUM OF UNDERSTANDING

To the extent any inconsistencies arise between the Chicago Transit Authority Drug and Alcohol Policy and Testing Program for Non-Safety Sensitive Employees ("the Policy") and any federal, state or local laws, regulations, and ordinances, the latter shall control and shall supercede any inconsistent provisions of the Policy.

*Part of Wage and Working Conditions Agreement
between CTA and 241 & 308 ATU*

ATTACHMENT H

Employee Assistance Program (EAP)

Part of Wage and Working Conditions Agreement between CTA and 241 & 308 ATU

A. Services

The services of the Employee Assistance Program (EAP) will be available to full-time permanent employees who have completed one year of continuous service who voluntarily request assistance from the EAP, to first time rule violator under the circumstances described in Section B below, and to their family members or significant others who seek advice or assistance in the areas listed below. In addition, the services of the EAP will be available to individual part-time employees who have completed one year of continuous service and who voluntarily request assistance from the program or who are first-time rule violators under the circumstances described in Section B below. The areas for which advice or assistance may be sought are the following:

1. **Substance Abuse**

Services for the treatment of substance abuse is available to eligible employees upon formal enrollment into the EAP and subject to the terms and conditions herein and the employee's chosen health care plan.

2. **Financial, Legal and Domestic Relations Problems**

Services to assist with financial, legal or domestic relations problems are available to eligible employees without formal enrollment into the EAP.

3. **Other**

Services to assist with emotional problems and other problems which affect the employee's job performance are available to eligible employees without formal enrollment into the EAP subject to the terms and conditions of the employee's chosen health care plan.

Services of the EAP are available to employees designated as Full-Time Permanent (FTP), Full-Time Temporary (FTT), Part-Time (PT) and Special-Part-Time (SPT).

B. Participation

1. **Volunteers**

Volunteers are those employees eligible to participate in EAP who request the assistance of the EAP on their own. The option of participating in the EAP as a volunteer will not be available to an employee after he or she has been notified to submit to breath/urine testing under CTA Drug and Alcohol Policy and Testing Program for Safety-Sensitive Employees and supplemental Policy for Non-Safety-Sensitive Employees, nor can an employee become a volunteer when subject to disciplinary action in order to avoid the discipline.

2. First Time Rule Violators

- a. If an employee eligible to participate in EAP, as defined in Section A above, with three (3) or more years of service violates the Authority's rules concerning alcohol, drug or controlled substance abuse (i.e. a rule violator), he/she may seek and be granted admission to the EAP subject to the following limitations:
- b. An employee who tests positive for alcohol (above specified limits), controlled substances or narcotics in the event of a vehicular accident involving a possible claim of personal injury or property damage will be discharged for the first such rule violation.
- c. In the case of a first time rule violator with three (3) or more years of continuous service, except in vehicular accident involving the possible claim of personal injury or property damage as defined by the "Attachment H Appendix", the rule violation alone will not constitute a basis for justifiable discharge.
- d. A first time rule violator with less than three (3) years of continuous service will be discharged on the basis of the rule violation alone. For a temporary employee who is hired as a part-time or full-time employee, any period between the time of his resignation and his acceptance of the first job opening offered to him will be included in the computation of continuous service, provided the employee has resigned from temporary employment for the purpose of obtaining part-time or full-time employment.
- e. A first time rule violator who refuses to participate in the EAP when provided the opportunity by the CTA, or by an arbitration decision will be discharged.
- f. An employee who has had more than one rule violation as defined above will be discharged.
- g. An employee who, prior to September 26, 1990, has participated more than once in the EAP program as a rule violator and/or a volunteer, because of drug and/or alcohol abuse may be allowed to participate in the program one additional time during the course of his or her employment. Such an employee will not be given access to the EAP as a rule violator if their previous participation was as a rule violator as defined above.

3. Independent Treatment Services

Employees who independently receive alcohol and/or substance abuse treatment services, and who either request payment for such services through a CTA health benefit program, or through some other health care program not associated with the CTA, must notify the Employee Assistance Program in writing within ten (10) days from the beginning of treatment. Such employees shall be treated as volunteer in accordance with section B.1 as of the date they notify the Employee Assistance Program. If an employee fails to provide notice as required under this paragraph, such employee shall be treated as a rule violator in accordance with Section B.2. In addition, they will be held personally liable for all costs associated with said treatment.

Employees who choose to participate in HMOs will waive any claim to confidentiality between themselves and the HMO and/or HMO-affiliated treatment physicians concerning alcohol and/or substance abuse treatment and will permit said HMO and/or physicians to notify the Authority if they seek such treatment from said HMO and/or treating physician. They also agree to fully

participate in any initial and/or follow-up monitoring program as determined by the Administrator/Coordinator of the EAP.

C. Treatment Programs

1. The Substance Abuse Professional to whom the participant's case has been referred will determine what professional assistance, if any, is necessary to resolve the individual's problems.
2. If a treatment program is necessary, the employee will not be allowed to continue in active service in his or her present occupation unless the Authority determines that the employee's occupation and the nature and severity of his/her problem does not require removal from service or job duties.
3. Notwithstanding paragraph 2 above, employees who perform safety-sensitive functions and have entered the EAP due to an alcohol, narcotic or controlled substance use/abuse problem shall be removed from service. Employees will be returned to service only after receiving certification from the CTA Medical Review Officer.
4. A full-time permanent employee who has completed one year continuous service and volunteers into the EAP because of an alcohol, narcotics or controlled substance use/abuse problem is eligible to sign into the sick book and additionally is eligible for the following:
 - a. The employee is eligible to avail himself or herself of the weekly indemnity insurance benefit of \$200 per week while the employee is participating in an authorized and approved detoxification and rehabilitation program for a total of sixteen (16) weeks. The indemnity insurance benefit will be available for a second time during the course of employment for a total eight (8) weeks. In no event shall the weekly indemnity insurance benefit exceed a total of twenty-four (24) weeks during the course of employment.
 - b. The employee will be eligible for hospital insurance benefits for hospital administered detoxification rehabilitation three (3) times during the course of employment.
5. A part-time employee who has completed one (1) year of continuous service and volunteers into the EAP because of an alcohol, narcotics or controlled substance use/abuse problem is eligible to sign into the sick book and additionally is eligible for hospital insurance benefits for hospital administered detoxification rehabilitation three (3) times during the course of employment.
6. Upon successful completion of the initial phase of a treatment program prescribed by the Substance Abuse Professional, but in no event sooner than eight (8) weeks after entering the EAP, a volunteer whose current job classification at the time of entering the EAP is safety-sensitive will be returned to the active status in his/her former classification, subject to the applicable procedures and restrictions, and provided the volunteer has been approved to return

to duty by the Substance Abuse Professional and been found fit for duty by the CTA Medical Review Officer, subject to the voluntary announced relapse provision in Section G.4.

Upon successful completion of the initial phase of a prescribed treatment program, but in no event sooner than four (4) weeks after entering the EAP, a volunteer whose job classification at the time of entering the EAP is non-safety-sensitive will be returned to active status in his/her former non-safety-sensitive classification, subject to the applicable procedures and restrictions, and provided the volunteer has been approved to return to duty by the Substance Abuse Professional and been found fit to return by the CTA Medical Review Officer, subject to the voluntary announced relapse provision in Section G.4.

Upon successful completion by a volunteer of a prescribed treatment program, and prior to his or her return to active status, the EAP shall provide the volunteer with a written confirmation that he or she has been released to return to active status, the date he or she entered the Program, and that the time spent in inactive status as directed by the EAP shall not be charged as absenteeism.

7. Any volunteer who participates in a treatment plan prescribed by the Substance Abuse Professional and who fails to satisfactorily participate in said treatment program, or who otherwise fails to satisfy all terms and conditions of his/her EAP participation as determined by the Substance Abuse Professional, or who the CTA Medical Review Office finds unfit to return to duty, shall be made a rule violator provided the employee has no prior rules violation subject to the terms and conditions of Section B.2.
8. An employee may volunteer into the EAP because of an alcohol, narcotics, or controlled substance use/abuse problem three (3) times during the course of his employment. An employee who, prior to September 26, 1990, has participated more than once in the EAP program as a rule violator and/or a volunteer because of drug and/or alcohol abuse, may be allowed to participate in the program one additional time during the course of his or her employment. Such an employee will not be given access to the EAP as a rule violator if said previous participation was as a rule violator.
9. Any first time rule violator who is eligible and is permitted by the CTA or by arbitral remedy in a discharge case to participate in the EAP shall not be eligible for any weekly indemnity insurance benefits. A first time rule violator shall be entitled to the following other benefit:

The employee will be eligible for hospital insurance benefits for hospital administered detoxification-rehabilitation three (3) times during the course of employment. However, failure to make the appropriate patient advocate notice and or failure to contact the Administrator/Coordinator of the EAP within ten (10) days of said treatment will result in the employee being held responsible for all such billings. Contact with the employee's health care provider only, will not fulfill this notice requirement.

10. Upon successful completion of the initial phase of a prescribed treatment program, but in no event sooner than sixteen (16) weeks after entering the Employee Assistance Program, a rule violator will be returned to active status in his or her former classification, subject to applicable procedures and restrictions.

11. Any rule violator who participated in a treatment plan prescribed by the Substance Abuse Professional and who fails to satisfactorily participate in said treatment program, or who otherwise fails to satisfy all terms and conditions of his/her EAP participation, as determined by the Substance Abuse Professional, or who the CTA Medical Review Officer finds unfit to return to duty, shall be terminated.
12. Although an employee may be accepted into the EAP because of an alcohol, narcotics, or controlled substance use/abuse problem as a rule violator only once during the course of his/her employment, such an employee will have the right to volunteer three (3) times into the Program for this problem during the course of employment. However, no employee shall have access to the EAP as either a volunteer or a rule violator, or a combination of the two, more than three times during his/her employment. (Therefore, an employee may either volunteer three (3) times, or be a volunteer twice (2) and a rule violator once (1) during his/her employment.)
13. Any employee who is not actively working in his/her regular classification as a result of participating in the EAP is entitled to receive upon request and on the same basis as all other employees, payment for any unused vacation. Such vacation payment will not be given during the same period as an indemnity payment.
14. It is understood, however, that nothing herein shall service to provide benefits to employees who would not otherwise be entitled to same under Article 15 (Insurance and Sickness Benefits) of the collective bargaining agreement.

D. Restrictions

An employee suffering from an alcohol/narcotics/substance use/abuse or psychiatric impairment will be removed from safety-sensitive classification. An employee in a safety-sensitive classification shall be deemed suffering from psychiatric impairment when the employee's condition in a safety-sensitive classification poses a safety risk to self, the public, or other employees.

E.1 Return to Former Classification

An employee who has been removed from his or her occupation for undergoing treatment as a result of entering the Employee Assistance Program to receive treatment for alcohol/narcotics/substance use or psychiatric problems will be returned to his or her former position under the following circumstances:

Alcohol/Narcotics/Controlled Substances:

- a. The employee has actively and successfully participated in the prescribed program of treatment;
- b. The employee passes a physical examination certified by the Medical Review Officer and requalifies for his or her position through normal procedures; and

- c. The employee agrees to continue participation in the Employee Assistance Program and to comply with monitoring programs directed by the Authority.

Psychiatric Impairment:

- a. The Employee Assistance Program Director determines that the employee is capable of resuming active employment and the Medical Review Officer releases the employee;
- b. The employee is not precluded from such return by operational or by other medical restrictions; and
- c. The employee agrees to continue participation in the Employee Assistance Program and to comply with monitoring programs directed by the Authority.

E.2 EAP participants Who Do Not Desire to Return to Former Safety-Sensitive Position

An employee-participant, formerly a safety-sensitive employee, who successfully completes the initial treatment phase of the Employee Assistance Program and who does not wish to return to his or her former position is subject to the following procedures:

- a. The employee-participant will request in writing to the Employee Assistance Program Administrator/Coordinator that he or she be placed in a position other than his or her former position.
- b. The EAP Administrator/Coordinator will notify the Union and Personnel Administration Department and the employee-participant's department of the employee-participant's request.
- c. If an alternate bargaining unit position is available, an employee-participant, for purposes of initial placement only, will be placed in that position on the basis of company seniority. It is understood and agreed that the determination of whether or not an alternate bargaining unit position is available is within the sole discretion of the CTA and is not a grievable issue under the CTA-ATU Wage and Working Conditions Agreement. Nothing contained herein precluded an employee from bidding on a posted position in accordance with the procedures contained in the Wage and Working Conditions Agreement.
- d. If no alternate position is immediately available, the employee participant will be placed in Area 605 and will be subject to Attachment D of the CTA Wage and Working Conditions Agreement. However, such employee participant, no earlier than nine months after being placed in Area 605 and no later than ninety days prior to the expiration of the two-year period referred to in Attachment D may request a return to his or her former operating position and will be placed in such budgeted position if it is available and if the Authority's medical department has found the employee fit for duty.

- e. If an employee-participant makes a request to be placed in a position other than his or her former position, weekly indemnity insurance benefits will be terminated on the date of the request.

F. Bridging of the Work Record

The work and discipline record of an employee participating in the Employee Assistance program will be bridged across the period of time an employee is not actively working in his or her regular classification for the purpose of determining time limitations in consideration of the employee's past record.

G. Program Adherence

1.
 - a. Employees who have entered the EAP must continue to meet all conditions prescribed at the beginning of the treatment program.
 - b. Each participant who returns to duty after successfully completing the initial phase of the EAP is subject to unannounced follow-up drug and/or alcohol testing. The Substance Abuse Professional shall determine the frequency and duration of such follow-up testing. The participant shall be required to take a minimum of six (6) follow-up tests with verified negative results during the first twelve (12) months after returning to duty. After that period of time, the Substance Abuse Professional shall determine the frequency and duration of follow-up testing, provided that the follow-up testing period ends sixty (60) months after the employee returns to duty.
 - c. Upon notification of a follow-up test, the employee must report to the designated testing location as required. Violation of such conditions will warrant a Memorandum of Non-Participation which may constitute rule violator status in accordance with Section B.2. Also, failure to progress toward resolution of problems which affect work performance, fitness for duty, or that the employee's pledge to remain substance free will also warrant a Memorandum of Non-Participation which may constitute rule violator status in accordance with Section B.2.
2.
 - a. An employee required by the EAP to submit to a follow-up test, in accordance with this section, during his/her scheduled work hours shall be compensated by the CTA for the time he or she spends with no loss of daily pay. However, it is understood that if an employee is directed to return to work after completion of a follow-up test, the employee may be required to perform any work to be done in his/her classification, including unscheduled work. Time spent in meeting the follow-up test requirement will be considered as time worked for overtime computation purposes.

- b. An employee requested by the Authority to submit to a drug and/or alcohol test due to the employee's failure to satisfactorily comply with his/her follow-up testing plan requirements shall not be compensated.

3.

- a. If an employee is on active status after the initial EAP treatment anytime during the course of the follow-up phase and is found to be positive for alcohol (above the specified limits), drugs or controlled substances, he or she will be considered as a rule violator as defined by Section B.2 except as provided in Section G.4 below. An employee is deemed to be on active status and subject to this provision as of the time the employee reports for the return to work physical. The Substance Abuse Professional will notify the employee in writing, at the time he or she successfully completes their initial phase of EAP treatment and is released to return to his or her former classification, that the follow-up phase commences when the employee reports to the Medical Department for the return to work physical.
- b. However, an employee on active status as referenced in subsection 3.a above shall be discharged and not be made a rule violator if (1) the employee has any prior rule violations during his/her history of employment with CTA, or (2) the positive result was for a drug/alcohol test conducted pursuant to a vehicular post-accident situation involving any personal injury or property damage as defined by Section B.2 and the "Attachment H Appendix".

4.

- a. If an employee, anytime during the course of the follow-up testing period referred to in Section G.3, and prior to notification of a drug and/or alcohol test in accordance with Attachment G, Section 11.A, informs the EAP counselor that he or she has relapsed, the employee shall be permitted to continue in the Program. An employee will be permitted to relapse only once during the follow-up testing period. The employee will continue in the Program as either a rule violator or a volunteer depending on how he or she was admitted to the Program prior to the relapse. However, continuing in the Program shall not constitute volunteering into the Program for the purposes of Section C.8. The Substance Abuse Professional shall determine the length of the prescribed treatment program, but in no event shall an employee be removed from service for more than sixteen (16) weeks after announcing his or her relapse. Upon the Medical Review Officer finding the employee fit for duty, the employee shall again be subject to unannounced follow-up testing pursuant to Section G.3 above.

5.

- a. The EAP will notify the Union and conduct an intervention meeting in the event of non-participation on the part of a participant. However, continued non-participation after said intervention will result in a Memorandum of Non-Participation which may constitute rule violator status as defined by Section B.2. Inadvertent failure to notify the Union, or failure to conduct said intervention meeting, will not serve to excuse an employee for non-compliance with the prescribed EAP conditions.

H. Administration of the Employee Assistance Program

The Chicago Transit Authority reserves the right to administer the Employee Assistance Program, to the extent that it is responsible for the administration of the persons and institutions that provide necessary treatment and services and the administration of appropriate treatment and services.

A Union-Management Committee, consisting of no more than four (4) representatives appointed by the Authority and four (4) representatives appointed by the ATU Local Unions will meet and confer on issues concerning the provisions of Attachments G and H of the CTA-ATU Wages and Working Conditions Agreement. This Committee will meet, at the request of either part, to review and make recommendations concerning the administration of the Program. Such recommendations will not be binding unless specifically accepted by the Authority and the Unions.

I. Hiring of Former Part-time Employees

Part-time employees who resign as a result of drug or alcohol problems are eligible for reconsideration for employment after a twelve (12) month period. To reapply, the former employee must formally notify the EAP of his/her request and include records that verify that the employee has been drug or alcohol free. If the EAP approves the employee's request, the employee's request for reemployment will be considered by the Personnel Department equally with all other applicants for employment. Should the employee be selected for further processing, the employee will be notified and will continue the employment process subject to normal employment procedures.

J. Effective Date

Date of ratification by both parties.

K. Grievance/Arbitration Procedure

Any dispute concerning this policy shall be subject to the parties' grievance/arbitration procedure contained in their collective bargaining agreement.

ATTACHMENT H APPENDIX

Definition. For the purposes of Attachment H, "Vehicular Accident" is defined as an occurrence associated with the operation of a CTA vehicle that results in a possible claim of personal injury and/or property damage. It is the intent of the parties that this definition included any employee(s) whose performance could have contributed to the accident such as:

- employee(s) who were controlling the movement of or operating the vehicle at the time of the accident,
- employee(s) assisting in the movement of the vehicle at the time of the accident, and/or,
- employee(s) who repaired, maintain or serviced the vehicle, and where it was determined that the performance of said repair, maintenance or servicing could have contributed to the accident.

In general. The authority to order a post-accident test is pursuant to Attachment G of the collective bargaining agreement. The decision whether to conduct a post-accident test rests with the CTA official(s) with the authority to make such decisions. The CTA official has up to eight (8) hours from the time an accident occurs in which to conduct a breath alcohol test and up to thirty-two (32) hours in which to collect a urine specimen to conduct a drug test. The procedure to determine whether alcohol/drug testing shall be done under Federal Transit Administration ("FTA") or CTA jurisdiction is contained in Human Resources Compliance Bulletin HRPC 97-1, a copy of which is attached hereto.

Fatal accidents. A post-accident test must always be ordered when there is a fatality. In such instance, if the employee(s) involved is(are) safety sensitive, an FTA post-accident test will be ordered by the CTA official. If the employee(s) involved in the fatal accident is(are) not safety sensitive, a CTA post-accident test will be ordered by the CTA official.

Non-fatal accidents. In non-fatal accidents, the CTA official will determine whether to order a post-accident test using the best information available at the time of the decision. If the CTA official determines, using the best information available at the time the decision is made, that the employee(s) could have contributed to the accident, the CTA official shall order a CTA or FTA post-accident test.

However, if the CTA official determines, using the best information available at the time the decision is made, that the employee's performance can be completely discounted as a contributing factor to the accident, the CTA official is not required to order a post-accident test, regardless whether the test falls under FTA or CTA jurisdiction.

Re: Full-Time Temporary Employees
For Capital Projects

Dear Mr. Thoures:

The Authority has received federal funding for capital improvement projects involving rehabilitation of rail cars and of air-conditioning units.

As a result of this capital funding, the Authority will possibly require two full-time temporary Blacksmith Welders for the period extending from approximately April 1, 1990 to June 1, 1991. While the Authority cannot commit to retaining such employees beyond the depletion of federal funding, we recognize that the duration of the new projects is such that we could not expect full-time temporary employees to commit to working an extended period of time without benefits. Therefore we have designed the following program:

1. Employees will be hired as FTT's and will be informed that they will be required to resign or be separated at the end of the capital project to which they are assigned if budgeted full-time permanent positions are not available in which to place them.

2. At the completion of six months, the employees' work records will be evaluated and, if acceptable, they will continue as full-time temporary employees. However, for the purpose of benefit eligibility only (and with the exception of pension credit), they will be treated as if they had become full-time permanent employees. They will begin to receive normal vacation credit for days worked; they will become eligible for holidays under the terms of the CTA-Union Wages and Working Conditions Agreement; and they will become eligible for the full employees' group insurance package under the same terms as a newly hired full-time permanent employee.

- a. For example, an employee hired on January 1st will continue to be an FTT employee on and after July 1st, but will be able to take and be paid for the scheduled work day preceding Christmas Day, since this holiday occurs more than three months after July 1st. The employee would not be eligible for the Fourth of July holiday, since under the terms of the CTA-Union Agreement, no holiday guarantees apply for the first three months of permanent employment, and, for the purposes of the holiday benefit, the FTT employee is being treated as a permanent employee as of July 1st.
 - b. For example, given the above January 1st-July 1st scenario, the FTT employee and his or her dependents are eligible for hospital and medical benefits on October 1st, just as any other employee who became permanent on July 1st.
3. As stated above, the FTT employee will not be given pension credit nor be required to make pension contributions.
4. In the event full-time permanent positions become available during the capital projects period, FTT employees with an acceptable record will be given first preference for such open positions. The FTT employee will be placed in the position and will be given credit for the period spent as an FTT. For example, if the employee has been an FTT for six months or more, he will immediately become a full-time permanent employee.
5. In the event that the FTT employee cannot be placed in a full-time permanent position at the time that the Capital project work to which he is assigned concludes, he or she will be required to resign or be administratively separated.
6. Any qualified reference submitted by the Union for the FTT-Capital positions will be given first preference for hiring into those positions. Please keep in mind the Authority's affirmative action commitments.

RE: Full-Time Temporary Employees
For Capital Projects Hired
Prior to March 23, 1990

Dear Mr. Thoures:

The Authority is prepared to extend the same benefits as outlined in our March 23, 1990 letter of agreement to certain full-time temporary capital employees hired prior to March 23, 1990. A copy of this letter of agreement is attached herewith as Exhibit A

The employees hired prior to March 23, 1990 eligible to receive these benefits are listed on Exhibit B, attached. Exhibit B also reflects the employees' dates of hire, when/if they transitioned to a non-capital position and the employees' eligibility dates for certain benefits (i.e. insurance, holidays, etc.).

If the above is acceptable to you, please so indicate by signing below and return it to me.

As soon as we have your acceptance, a copy of this letter of agreement (including exhibits) will be sent to Personnel Administration, Payroll Operations, Insurance and the affected employees' location areas so that the necessary steps can be taken to effectuate this agreement.

If you have any questions, please contact me immediately.

Very truly yours,

James E. Bidwill
Director, Contract Administration

Mr. Nick F. Burkard
Business Manager
International Brotherhood of Electrical Workers
Local Union #9
High Point Plaza Office Center
4415 West Harrison Street, Suite #330
Hillside, Illinois 60162

RE: Inter-Union Transfers

Dear Mr. Burkard:

In accordance with the directive of Interest Arbitrator James J. Healy in Part V, Section X and Part VI, Section XI of his September 26, 1990 Arbitration Award between the Authority and the Amalgamated Transit Union, the International Brotherhood of Electrical Workers, the Teamsters and the Metal Trades Council, this letter is written to record the agreement of the parties concerning the subject of Union-referred applicants.

The agreement is as follows:

1. a) Half of the entry-level openings within the bargaining unit jurisdiction of an individual I.B.E.W. or M.T.C. union will be posted as full-time permanent positions. First preference for filling the positions will be automatically given to present full-time permanent employees in the individual bargaining unit. If qualified candidates cannot be selected from this group, then all other qualified, full-time permanent CTA employees who have applied will be considered for the opening. If qualified candidates still cannot be found, then the position will revert to FTT status and the Authority will consider outside hires.

1. b) The remaining half of entry-level openings will be filled, as in the past, as full-time temporary positions and will be filled by outside hires.

2. In each of the CTA-M.T.C. and CTA-I.B.E.W. Wage and Working Conditions Agreement, paragraph B of the section titled "Temporary Employees" will be interpreted to include permanent full-time employees who transfer from positions outside of the bargaining unit jurisdiction into positions within an I.B.E.W. or M.T.C. union's bargaining unit jurisdiction. In other words, the provision under which fifty percent (50%) of open full-time temporary employee positions are conditionally reserved for Union-referred applicants will be applied to all entry-level positions within the

Nick F. Burkard
Page - 2 -
December 10, 1990

individual union's bargaining unit jurisdiction whether or not they are full-time permanent positions filled by an employee transferred from another CTA positions, or are full-time temporary positions filled by an outside hire. For example, a transferred employee would be considered to be a "CTA referral", unless he or she was in fact recommended for the position by the union, in which case the employee would be considered a "Union-referral" and would be counted toward satisfaction of the conditional requirement that 50% of positions would be reserved for union-referred applicants.

3. If a CTA employee transfers into a position within a particular union's bargaining unit jurisdiction, he or she will be transferred as a full-time permanent employee and retain his or her company seniority for such benefits as vacations, health and welfare, holidays and pension. His or her departmental and union seniority will begin on the day of transfer.

If the above accurately reflects the agreement between the Authority and the unions you represent as a member of the Interest Arbitration Panel, please so indicate by signing below.

Very truly yours,

Grant Ward, Jr.
Manager, Labor Relations

APPROVED:

FROM: Director, Contract Administration
RE: Inter-Union Transfers

Attached is a letter of agreement executed by Grant Ward, Jr. as a representative of the Authority and by Nick Burkard, as interest arbitrator for the Metal Trades Council unions, the I.B.E.W. unions and the Teamsters, which satisfies Part V, Section X and Part VI, Section XI of the Healy interest arbitration award.

This agreement concerns inter-union transfers. It allows an employee in one bargaining unit to transfer to a position under the jurisdiction of another bargaining unit without the previous requirement of resigning and being rehired as a full-time temporary employee thus losing all benefits earned by years of service, such as vacation entitlement and pension credit. The agreement also protects the union's conditional right, under the "Temporary Employee" provision of the CTA-Union collective bargaining agreement, to refer applicants for 50% of open positions within its jurisdiction, by expanding that right from full-time temporary positions to all entry level positions within the bargaining unit jurisdiction of the Union.

This letter of agreement will be incorporated as an attachment to the integrated collective bargaining agreements of all affected unions, including the separately negotiated agreements with the Operating Engineers and the Bricklayers.

If you have any questions or comments, please contact me.

**AGREEMENT BETWEEN THE CTA CRAFT COALITION AND THE CHICAGO
TRANSIT AUTHORITY REGARDING PROJECT LABOR AGREEMENTS**

The Chicago Transit Authority ("CTA") and the labor organizations that bargained as a Coalition in the negotiations that resulted in the Wage and Working Conditions Agreements with the stated expiration dates of December 31, 2016 ("Craft Coalition") hereby agree as follows:

In order to insure the timely, orderly and uninterrupted completion of work without labor disputes, and to reduce job site friction, CTA and each Craft Union agree as follows during the term of this Agreement:

To the extent permitted by law, in the event the CTA, either directly or indirectly through a contractor or construction manager, undertakes construction work within the trade/craft jurisdiction of a member of the CTA Craft Union Coalition to be done at the Site of construction or off-site solely for installation at the Site as defined in and permitted by the National Labor Relations Act, owned, leased or controlled by the CTA, each affected Coalition Union shall receive thirty (30) days advance notice prior to the CTA's undertaking except in the case of emergency, the CTA shall perform or require the performance of such work by a person, firm, or company signatory or willing to become signatory for the purposes of the CTA Project to an existing labor agreement with the Coalition Union or a union with the appropriate trade/craft jurisdiction located in the geographic area served by the CTA. Said agreement shall be included in all requests for bids and/or proposals in accordance with CTA written policy, contracts or subcontracts of whatsoever tier by all contractors or subcontractors.

This agreement is subject to the approval by the Chicago Transit Board.

This agreement does not apply to contracts previously awarded entered into or advertised prior to the date of this agreement.
